

The Fabric of Eternity. A Scientists View of the Works of Providence

By Istvan Kolossvary

Biokol Research, LLC. Paperback. Book Condition: New. Rita Farkas (illustrator). Paperback. 106 pages. Dimensions: 8.0in. x 5.0in. x 0.2in. The Fabric of Eternity is the authors personal view of the Universe that allows for science and theology to explore the wonders of creation in peaceful unison. It is neither new science nor new theology; it is a humble attempt to lower the language barrier between these two disciplines in hope for a better understanding, appreciation, and gratitude to the Universe and her Creator. I shall argue -on scientific grounds- that as far as science is concerned there are only two ways of thinking about the workings of the Universe. We either realize the continuous loving care of God, or we go it alone, reject God, and insist upon a self-contained existence with no reason or purpose. Science can only offer these two fundamental alternatives but cannot decide between them in the lab. I shall argue that the go it alone theory may be proven false, though, in a scientific experiment involving us, humans. Some would argue that the most sensitive experimental device is a pencil standing on its tip; the tiniest push would make it tip over. I would argue, however,...
