CAN YOU COOK A TURKEY BY DROPPING IT?

Turner Publishing Company, United States, 2015. Paperback. Book Condition: New. 2nd ed.. 224 x 152 mm. Language: English . Brand New Book. Have you ever wondered whether a human could really fly with wings like a bird s? What about how many zombies you could actually drive through? Or whether airplanes could save fuel by using iPads instead of paper safety manuals? How about whether Superman could really punch someone into space?In *Geek Physics*, Rhett Allain, a physics professor and *Wired* s popular *Dot Physics* blogger, finds intriguing questions buried in familiar movies and TV shows, video games, viral videos, and news hooks and walks readers through the fascinating answers from a physics perspective, without all the complicated details. *Geek Physics* appeals not just to the geek oriented but also to anyone who loves pop culture and technology. With illustrations, basic equations, and easy-to-read graphs and diagrams, each chapter not only covers the most popular subjects from Allain s blog, like lightsabers and McDonald s drive-thrus, but uses those questions from a less technical approach to teach basic physics concepts. What better way to explain the nature of light than to consider how Gollum could see in the dark? *Geek Physics* explores interesting questions like: * How much bubble wrap would you need to safely jump off a 6th floor building? * Why does R2-D2 fly the way he does? * Why does a mirror reverse left to right, but not top to bottom? * Is *Angry Birds* using real physics? * Does a heavier truck make a better snow plow? * What if everyone on earth jumped at the same time? * How many dollar bills would it take to stack them to the moon?.
