BRAND NEW, In Defence of Astrology: Answer the Critics of Astrology, Robert Parry, This is an entertaining and informative guide to the subject of astrology. The first few chapters deal with the make-up of the birth chart, the kinds of astrologer at large in the world today, and what you can expect if you choose to have a proper consultation done through a professional practitioner. The book then goes on to list and to discuss the 12 most commonly presented criticisms of astrology, with arguments and counter arguments presented in detail, including scientific discussion.
