BIOMOLECULAR CRYSTALLOGRAPHY: PRINCIPLES, PRACTICE, AND APPLICATION TO STRUCTURAL BIOLOGY

Garland Science, 2009. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: PRAISE FOR Biomolecular Crystallography: "Over the past 34 years Louise and I have often discussed the possibility of updating [Protein Crystallography]. However, this marvelous text by Bernhard Rupp provides everything that we could have done and more: indeed all that is required for the student of 2010. Biomolecular Crystallography is an impressive volume. Its 808 pages are beautifully written and wonderfully illustrated, many in colour. This book will be an essential part of the library of any department that claims to make contributions to modern biology. [and] a necessary addition also to the libraries of big pharmaceutical companies and small biotechs. This is a book to be enjoyed by all who wish to become structural biologists. I am also sure that many practicing structural biologists - even some who consider themselves mature - would do well to read its pages." - Tom Blundell, Journal of Applied Crystallography "It is a masterpiece. It is the book which the MX community has been waiting for and it is an absolute must-have for everybody in the field." - Acta Crystallographica "This is the book that molecular biologists and the crystallographic community have been waiting for." - Alexander McPherson, University of California at Irvine, USA 'Biomolecular Crystallography is first and foremost a comprehensive reference text and laboratory manual for the practicing structural biologist, from the basics of biomolecular structure to modern advanced and powerful techniques in biomolecular structure determination, and analysis and application of structural information. Figures and graphs computed from new and original data are used extensively to help clarify important concepts, and derivations of all relevant mathematical and statistical principles-many of which have never been brought together in a single volume-are presented. This fulfils a long-felt need!' - Ian...
