ESTIMATING THE MAGNITUDE AND FREQUENCY OF FLOODS FOR STREAMS IN WEST-CENTRAL FLORIDA, 2001: USGS SCIENTIFIC INVESTIGATIONS REPORT 2005-5080

Estimating the magnitude and frequency of floods for streams in west-central Florida, 2001: USGS Scientific Investigations Report 2005-5080

Kathleen M. Hammett, Michael J. DelCharco

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Flood discharges were estimated for recurrence intervals of 2, 5, 10, 25, 50, 100, 200, and 500 years for 94 streamflow stations in west-central Florida. Most of the stations are located within the 10,000 square-mile, 16-county area that forms the Southwest Florida Water Management District. All stations had at least 10 years of homogeneous record, and none have...

Reviews

This composed publication is great. It is one of the most remarkable publication i have got read through. I am just quickly could get a delight of looking at a composed book.

-- **Caden Buckridge**

Basically no words to explain. It can be rally interesting through reading period. Its been printed in an exceedingly basic way and is particularly merely soon after i finished reading through this book through which actually modified me, change the way i really believe.

-- **Miss Elenor Gerlach**

The book is fantastic and great. I have go through and i also am certain that i will planning to read through once more once more down the road. Its been printed in an exceedingly simple way and is particularly simply after i finished reading through this publication through which really changed me, change the way i think.
